```
:/etc/security/limits.conf pam_limits.so ulimit() , ..
```

The diagram illustrates a two-stage sampling process. At the top, a large circle is labeled 'N'. Inside this circle is a smaller circle labeled 'n'. Inside the 'n' circle is a circle labeled 'm'. Arrows indicate the flow of selection: from 'N' to 'n', and from 'n' to 'm'. Below the 'm' circle, there are two smaller circles, one labeled '1' and one labeled '2', representing the subsample.
