

PostgreSQL

:

- Astra Linux

PostgreSQL:

1. `sudo sed -i 's/#locale = "en_US.UTF-8"/locale = "ru_RU.UTF-8"/g' /etc/postgresql-common/createcluster.conf`

2. `sudo systemctl restart postgresql`

```
pg_lscluster
```

:

Ver	Cluster	Port	Status	Owner	Data directory	Log file
11	main	5432	online	postgres	/var/lib/postgresql/11/main	/var/log/postgresql/postgresql-11-main.log

3. `sudo pg_dropcluster --stop 11 main`

```
pg_dropcluster --stop 11 main
```

4. `sudo systemctl restart postgresql`

```
pg_createcluster --locale ru_RU.UTF-8 --start 11 main
```
